Nothing in this world
No treasure man could buy
Could take the place of drawing near to You
There's nothing i want more
Than to spend my days with You
Dwelling in Your secret place of praise
And oh how I need I need lou
Jesus I need You
You are the one that satisfifes
You are the one that satisfies
So place within my heart
A fire that burns for You
That waters cannot quench nor wash away
And let that fire blaze
Through all eternity
Where one day I shall see You face to face
