I never know just where I am with you
You wouldn't have it any other way no no no
Whatever the time or the place with you
You're always somewhere far away
It's so good to know you
What you're trying to tell me is
I've never known you at all
You just don't mind me being so confused
I never no quite wich way to turn no no no
It's just a case of letting go with you
It's just a case of i don't know
It;s so good to know you
What you're trying to tell me is
I've never known you at all
So good to know you
What you're trying to tell me is
I've never known you at all
So good to know you
What you're trying to tell me is
I've never known you at all
So good to know you
What you're trying to tell me is
I've never known you at all
So good to know you
