There's nothin' here to catch me now  
I'm gonna fall anyway  
It's just that kind of day

You might not know me good  
But you know me good enough  
To make me okay, okay

Just close your eyes  
And put you lovin' on me  
Put your lovin' on me  
Take this weight off me  
And put your lovin' on me

There's a chance that you might see  
Somethin' rollin' off my cheek  
But don't stop, it's not you

Make me forget, be my drug  
Get me high on your touch  
For the night, alright

Just close your eyes  
And put you lovin' on me  
Put your lovin' on me  
Take this weight off me  
And put your lovin' on me

Hey, hey, hey

Put your lovin' on me  
Put your lovin' on me  
Put your lovin' on me  
Put your lovin' on me  
Take this weight off me  
And put your lovin' on me

There's nothing here to catch me now  
I'm gonna fall, anyway
