Something in your eyes say you're falling in,
You're a part of me, you're under my skin,
Every piece of me has felt so incomplete 'til you came
into my life,

You and I are so entwined,
I always knew that I was made for you,

Lover don't you know you're so beautiful?
You're inside my heart, you're inside my soul,
When I see you move and laugh the way you do I am
melting into you,

You and I are so entwined,
I always knew that I was made for you,

You and I are so entwined,
I always knew that I was made for you.
