Momma's Boy

What did I say to Momma that brought her down
I am not a soldier, I'm your man
She's got a Mona Lisa in her soul
Where the hell did you come from?

The Children take up weapons and a battle call
Can you help me Momma? I don't wanna die
She's got a paper tiger in her soul
Where the hell did you come from?

I don't wanna be here, Can't fight no more
What will I say to momma to make ammends?
She's got some Voodoo Magic in her soul
Where the hell did you come from?
