"No Good Goodbyes"

I see your fear you know it's clear

Your fear whoa it's clear

Say what you want to it comes out lies

Believe what you want to

No good goodbye no goodbyes

You take control without a soul

You control with no soul

Say what you want to it comes out lies

Believe what you want to

There's no good goodbyes

Your fear you should beware

Say what you want to it comes out lies

Believe what you want to

There's no good goodbyes

No goodbye no good goodbye
