[VERSE:]

Another day gone by
And still no reason why
You say goodbye but then you cry
A million miles apart we lie

I opened every door to you
I put all my trust in you
You took advantage of it why?
Was every word you said a lie?

[CHORUS:]

It's just another day, that didn't go my way
It's just another day
Cause times change, your mind's rearranged
You walked away cause you started feeling strange
You knew from the start that this wasn't for you
But your feelings can't control, the things that you do
That you do

[VERSE:]

I sit in here with all this fear
Empty thoughts and a blank stare
Trying to find, a reason why
The ones you trust, are the ones that lie

And was I wrong, for trusting you
You said you just don't know what to do
When you're with him, you think of me
Cause change means losing security

[CHORUS:]

It's just another day, that you're living life this way

It's just another day
Cause times change, your mind's rearranged
You walked away cause you started feeling strange
You knew from the start that this wasn't for you
But your feelings can't control, the things that you do
That you do

[BRIDGE:]

You say there's too much past with him
You can't throw it all away
But the past is all you have with him
History means security
That's what I say, it's just another day

[CHORUS:]

Cause times change, your mind's rearranged
You walked away cause you started feeling strange
You knew from the start that this wasn't for you
But your feelings can't control, the things that you do

Cause times change, your mind's rearranged
You walked away cause you started feeling strange
You knew from the start that this wasn't for you
But your feelings can't control, the things that you do
That you do
It's just another day
