There's this little girl and I think she's
So fine and I'm not giving up until she is
Mine see I wanna be her boy and I want
Her to be my girl because since I've met
Her I've been in another world

She was just my friend and now I
Want more there's something special to her
She's not just another whore I said

What's the d d d dillio dillio
What's the d d d deal deal
repeat 3x

See everybody else has gotten involved
But that's not the way this should have evolved
I should have just told you how I felt
But when I'm around you my words just melt

She was just my friend and now I
Want more, there's something special to her
She's not just another whore I said

What's the d d d dillio dillio
What's the d d d deal deal
repeat 3x
