I say goodbye
Seems only moments after I, I said hello
Ticket in hand thinkin' 'bout all our fans
Now I must go

I say goodbye one more time
And I'll call you when the wheels touch down

These dreams of mine
They take me only ever high
But not to you

I say goodbye one more time
And I'll call you when the wheels touch down
I say goodbye one more time
And I'll call you when the wheels touch down

Destination too far away
Are you still waiting?
Cuase I'm on my way

I say goodbye one more time
And I'll see you when the wheels touch down
I say goodbye one more time
Cause I'll see you when the wheels touch down
The wheels touch down
The wheels touch down
The wheels touch down
