[Keri hlnson:]

On the back two steps ahead of me  
Pressure time is wasting  
Happy boy you'd better be  
Trust me it's amazing  
But I got it wrong, how you should be with me  
I'm stuck in the sea how in need we are  
Reach the sky will be touching the moon  
But somebody is on the eye but he ain't you  
As the lucky lady night lost in the crowd  
I said you did you when the lights go down wow

Chorus:

Too late to stop girl you know what to do  
Baby don't waste my time, hurry up  
Don't wait no more  
It's getting hot girl got to keep it cool  
Gotta stay from behind too pressure cover's blown  
Your cover's blown, your cover's blown  
No girl your cover's blown, your cover's blown  
No boy, your cover's blown, your cover's blown  
No girl, your cover's blown, your cover's blown

[Timbaland:]

Ha ha  
What you need, what you want, what you want  
I guarantee I will, he won't  
Can't fake, can't front  
I'm want to give it to you,  
I need to cuts off, cuts off  
Let's ride out girl

You're tryin to stack, you can slide out girl  
And it just can't be  
Why would you want him when you can have me  
(Work show babe)  
Mister multi c, everything work and it don't come free  
(What's her name) baby girl trust me  
I need time two plus two  
And what you think about that?  
What you gonna do baby, how you're gonna act

But you nigga so act you don't hit it like that  
I could tell you make eye contact

[Chorus:]

Too late to stop girl you know what to do  
Baby don't waste my time, hurry up  
Don't wait no more  
It's getting hot girl got to keep it cool  
Gotta stay from behind too pressure cover's blown  
Your cover's blown, your cover's blown  
No girl your cover's blown, your cover's blown  
No boy, your cover's blown, your cover's blown  
No girl, your cover's blown, your cover's blown

They say love is blind  
Must be if your sleep is good as mine  
And the crowded club caught my eye through the door  
smoke I wasn't know  
I got ym eyes in the as so fat and wait  
In a way I'ma little walk in the pass like that I'm tryin  
make up late  
Put you in the coop and make you date  
But your lame man nigga make you stand the way  
Cope like I'm shocking anyway  
Yeah you something else  
But the sad part is you're with someone else  
You ain't being shit I ain't no myself  
So we should be together and we couldn't so,  
I'm tryin show your man respect  
I really wanna brag by your own arm and check

[Chorus:]

Too late to stop girl you know what to do  
Baby don't waste my time, hurry up  
Don't wait no more  
It's getting hot girl got to keep it cool  
Gotta stay from behind too pressure cover's blown  
Your cover's blown, your cover's blown  
No girl your cover's blown, your cover's blown  
No boy, your cover's blown, your cover's blown  
No girl, your cover's blown, your cover's blown
