Dance all night  
I said dance all night  
Hey baby girl, lookin' all grown up  
I wanna know where did you come from  
The heat begin to raise, hot woman  
The club about to go into flames and speakers thump  
in'  
Let's party hard, and just move somethin'  
The vibe is right and it goes, goes, goes somethin'  
somethin' somethin' like this  
Such a beautiful crowd  
Levels on ten  
They're standin' on chairs  
Wit' their our hands up in the air  
Girls gettin' real wild  
Hair blowin' in the wind  
Girls standin' on chairs  
Wit' their our hands up in the air  
Wit' their our hands up in the air  
Wit' their our hands up in the air  
Wit' their our hands up in the air  
Wit' their our hands up in the air  
Wit' their our hands up in the air  
Wit' their our hands up in the air  
Wit' their our hands up in the air  
Wit' their our hands up in the air  
High heels standin' on them soft couch cushions  
Careful not to break your concentration  
Maintain sexy as she maintain balance balance  
If you fall, baby girl it won't be cute at all (at all)  
Drink in your left hand (left hand)  
Girlfriend in your right (your right)  
On the couch dancin' (dancin')  
Holdin' on for dear life (life)  
Thump of the music (plus)  
Flash of the lights (plus)  
Long legs and a short skirt (equal)  
One hell of a night, I'm talking 'bout  
Such a beautiful crowd  
Levels on ten  
They're standin' on chairs  
Wit' their our hands up in the air

And I bet before the night ends (hey)  
I'm gon' find one that I'm likin'  
Take her home, get it on next mornin'  
Baby girl, gimme that one mo' a'gin before ya go
