All I wanna do is , all I wanna do is make up  
All I wanna do is...make up  
All I wanna do is...make up  
All I wanna do is...make up  
All I wanna do is...make up  
All I wanna do is...make up  
Put the, put the past behind us

All I wanna do is , all I wanna do is, all I wanna do is  
make up  
All I wanna do is...make up  
All I wanna do is...make up  
All I wanna do is...make up  
All I wanna do is...make up  
All I wanna do is...make up  
Put the, put the past behind us

(Sebastian)

Broken promises, broken wedding vows  
The clock is ticking down  
Hoping daddy'll crack a smile  
How can I support a child  
Last time I had a job, It's been a while  
The question remain so freely  
Why does it have to happen to me?  
To wash away the pain of drinking, Im thinking..

(Chad Kroeger)

Im waiting for the day that, together we could find  
another way back,  
Put everything we've got in stake lets worry about today  
And put tomorrow in a bottle. (bottle)

If theres some way that  
We can take back the wrong that we created we can  
change that,  
Dont turn your head the other way  
Your born to save today.  
Put tomorrow in a bottle  
Lets put tomorrow in a bottle (bottle) (x8)

(Sebastian)  
Ohhh, Girl, you ain't right  
I apologise  
Wont be satisfied till what we had was gone away  
Hey, Hey every other day we doesnt fight  
And I take it two wrongs dont make a right  
You had my head gone  
I had you dead wrong  
Thinking that same old song  
Wondering why you mad at me, me  
Now you gotta understand my lingo

....  
Baby This is how it should be (hey!)  
Are you gonna do me like that?  
Your both supposed to have my back, back (x4)  
And we both dont know how to act  
Wasnt a lead by the door ....

Chorus  
(Chad Kroeger)

...that I never thought at all the love we had would go  
away  
Put your back against the wall

I was your bread and butter  
Like girl  
Why was the relationship so down  
Like we established the fact  
That you were so strong to get  
I wont go spreading my ex  
From Tallahassee and back

Chad gonna sing the rest!!

(chorus)
