Yow, yow, this is Timbaland Thursday!
Girl, I like the way you move,
I like the way you're talking,
I like the way you groove!
I like the way that you...
I like to play your games, for me I play it cool,
... you got a man going,
You got my brain going, make me wanna sing a song!
You make the melody, making me wanna sing along,
I make yourself cry, have your ringing the alarm!
And when I'm afraid to walk, you light...
... over why you say it all!
... hid in the corner, there won't be sleep at all!
.dropping 'till you sign off,
I like the way you do make a move when I lose,
I like seeing you breaking rules, acting fool!
You like the way I'm upon it an when you say you do
I make you feel even happier when you're playing
rules!

[Chorus:] (x3)

You can have you way whenever you like!
You can have your way whenever you like!
You can have your way whenever you like!
Whenever you like!
Whenever you like!
Whenever you like!

You got me jumping like bungee,
I'm asking how high,
Sweetest... potato pie cause you... the fly guy!
You got me feeling so type
The way I can't even explain it,
And at the end of the day maybe you should complain
it!
I wanna pay more attention to you,
How much do I owe ya?
I'd die for you and show you...
You got me open like pocket,
But it's only fish in my brook,
Hook with one look, yeah, that's what took!

You got me going like I'm dead in the middle of...
My heart is chrome, going crazy like...
And you use... you hit me in the ball's eye
You got me falling like a sky dive!

[Chorus:] (x3)

You can have you way whenever you like!
You can have your way whenever you like!
You can have your way whenever you like!
Whenever you like!
Whenever you like!
Whenever you like!

I heard that you like me,
And your body excites me,
So why you're playing hard?
Why don't you come to me,
Why don't you come to me?
Why don't you come to me?
Why don't you come to me?
I heard you just like me
Won't you come and invite me,
So we can take a walk?
Why don't you come to me,
Why don't you come to me?
Why don't you come to me?
Why don't you come to me?

[Chorus:] (x3)

You can have you way whenever you like!
You can have your way whenever you like!
You can have your way whenever you like!
Whenever you like!
Whenever you like!
Whenever you like!
