Hold up El, hold up
Not yet El, hold up
Let it be right over for a second, now
Go 'head y'all, go 'head y'all

I like that, yeah
Let's move it out, let's move it out
Bring it down like this
Yeah yeah yeah

Move it out like this
Bring it in

I heard that come on and play that back
I'm really feeling that come on smash the track
It's just the regular 2 man show

I heard that come on and play that back
I'm really feeling that come on smash the track
It's just the regular 2 man show

Don't it sound good to ya, don't you agree?
Don't it sound good to ya, don't you agree?

Say what
Bring it down for me
Slow it down
Yeah

Come on El break it down
Go, what

I heard that come on and play that back
I'm really feeling that come on smash the track
It's just the regular 2 man show

I heard that come on and play that back
I'm really feeling that come on smash the track
It's just the regular 2 man show

Don't it sound good to ya, don't you agree?
Don't it sound good to ya, don't you agree?

Just switch it up right here
Yeah, I like that
Why, gimme that, gimme that
I like that

Come on El, take it to the higher level
Go a higher then that
Higher
Switch it up
I like that

Kill 'em, yeah
Ease it out for me
I like that

Now grab your cigar
Grab your lady
Hug her tight
Tell her that you love her

It's gonna pleasure y'all
Shock Value is now officially owned
Me, Elton John, signing out
