A lonely god you captured, do you feel the pain  
Tried to help the people but your help was all in vain  
You gave to us their fire, but who was watching you  
Chained and eyes are bleeding, now what you gonna  
do?

Whoa, oh

Yeah! Alright! Come on! Right now!

Now that they picked you, a lesson has been taught  
Join us now in vengeance and let the bodies rot  
A thousand times a thousand is finally gonna end  
Storms of war are brewing- we need your help but when  
Whoa, yeah, ahh!

Gods of wrath

Gods of wrath

Gods of wrath

Gods of wrath are heartless when they left you hanging  
there

Cast out and abandoned, you had to pay the fare  
Now's the time to break free and help us if you can  
'cause we're all behind you to start the master plan  
Whoa, yeah, ahh

Gods of wrath

Gods of wrath

Gods of wrath

Harpies far above you  
Saying you will never learn  
Reach up to the heavens and let the bodies burn  
You know you have the answer  
You've always been a friend  
Break the chains in anger and let it all begin  
Whoa, yeah, ahh

Gods of wrath

Gods of wrath

Gods of wrath

God, come down, gods are before you
