"Light Of Day"

Time goes by
Out of sight
Will somebody hear my cry

All I hear is my breathing
And I feel that my heart's still beating
But I wouldn't say that I'm alive

Something is telling me that I can fight it
Pray for the light
Light of day

Bound in desperation
Will I die by this situation
Say a prayer - my hope is still alive

Something is telling me that I can fight it
Pray for the light
Light of day

Light of day, light of day

Something is telling me that I can fight it
Pray for the light
Light of day
Light of day
Where is the light
Light of day
I'm alone
Light of day
The day... when I'll die
