This is my world, this is my life

The clock strikes, you feel the pain in your chest
It's time to sleep but you're mind won't let you rest
Your thoughts are swift, it's a battle in your mind
Half says you're fucked, the other half says you're fine

You're broken... broken in two
Have you ever had a day like this? A day like this?
Have you ever had a day like this? A day like this?

The feeling hits you, you're dizzy from your thoughts
Your brain is swollen, it's like a mental gunshot
You cannot move, the tension is so agonizing
No matter what you it just continues rising

You're broken... broken in two
Have you ever had a day like this? A day like this?
Have you ever had a day like this? A day like this?

Have you ever had a day like this? A day like this?
Have you ever had a day like this? A day like this?

This is my world, this is my life
