Where all the loadies go
Where all the junkies go
Do you know?
Do you know?

Now that we go and everything we know
It's the criminal streetwise and the people that lies
And everything I said, am I really dead?
If you do it like this, let me lay you in my bed

Where all the loadies go
Where all the junkies go
Do you know?
Do you know?

Where do the junkies go
What do they really know
Everybody said so
I don't think so

Everything you
Is that shit so true
Come on man
I'm looking at you

Where all the loadies go
Where all the junkies go
Do you know?
Do you know?
