

## Time Again

### "Montreal"

Visit "[Montreal](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Lightbulbs breaking and darkness falls  
And street kids setting off car alarms  
They're going off, they're going off

Running the streets, we gonna take it all  
Late at night in Montreal  
And we're high as fuck on the alcohol  
Hold to something and try not to fall

So Time Again Punx and we all unite  
Out in Montreal and we're looking for a fight

Lightbulbs breaking and darkness falls  
And street kids setting off car alarms  
They're going off, they're going off

On St. Catherines with Virginia, Sam and Frank  
We are going crazy and hit you like a tank  
And when we're done, we'll do it again  
One more night going out after with friends

And when we get back, back to Montreal  
We gonna take it over, we gonna take it all

Lightbulbs breaking and darkness falls  
And street kids setting off car alarms  
They're going off, they're going off
