You're goin' down  
You're goin' down  
You're goin' down  
You're goin' down

You said you didn't, we know you did  
Who the fuck you think you're talking to kid?  
You did it once, won't do it no more  
Your body's still shaking as it hits the floor

You're goin' down  
You're goin' down  
You're goin' down  
You're goin' down

The time has come, it's time to clear  
Don't come back you're not welcome here  
You did it once, won't do it no more  
Your body's still shaking as it hits the floor

You're goin' down  
You're goin' down  
You're goin' down  
You're goin' down
