Now you can smoke all you want,  
Hope it makes you feel as good as I did, as I did.  
I just hope that you miss me,  
At least half as much as you missed your, cigarettes.  
I miss the us we never were, come on let's be honest.  
I miss the us we never were, come on let's be honest.  
Now he can call you all he wants,  
I won't be around to tell him, you're fast asleep.  
I just hope that you miss me,  
At least half as much as you missed your, cigarettes.  
I miss the us we never were, come on, let's be honest.  
I miss the us we never were.  
I miss the us we'll never be.  
I miss the us we never were.
