Are you my enemy?
Only an enemy would turn like that
I gotta shake it off
This crisis I'm in because
I know what to expect
Are you too close to me
Well don't sit too close to me
Exaggerated, this crisis I'm in because
I know what to expect
It's so hard to concentrate
What now? This crisis I'm in is worse
The atmosphere is so strange to be here
It's so strange to be here
What now? That's the crisis I'm in
Have I offended you
Like I've done 1000 times before
I brought it on, this crisis I'm in because
I know what to expect
So stay away from me
Only that will help things
I know that this is the crisis I'm in is worse
The atmosphere is so strange to be here
It's so strange to be here
What now? This crisis I'm in is worse
The atmosphere is so strange to be here
It's so strange to be here
What now? That's the crisis I'm in
Are you my enemy?
I've gotta break it off
It's so hard to be here without you
It's the crisis I put myself in
