"Bonebag"

Visit "[Bonebag](#)" on MotoLyrics.com

Baby's in the bone bag baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag
Baby's in the bone bag again
Well I've been walking all over these hills
Picking up the pieces of the people I killed
Skinning all the good bits and taking them home
Put em in a sack just you leave em alone
Don't look baby hell don't touch that
Don't give pieces to your dog or your cat
Mind your own business you pretty little thing
Lets just pretend it aint existing

Baby's in the bone bag baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag
Baby's in the bone bag again

Solo
Baby's in the bone bag baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag
Baby's in the bone bag again

Been working hard day and night
When I get home don't wanna fight
Help me out darling just leave it alone
What you wanna do with that piece of old bone
Packed it away nice and neat

Shiny and white and free of meat
I got me a plan shouldn't worry you
Get out of that sack that's what you should do

Baby's in the bone bag baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag baby's in the bone bag
Baby's in the bone bag again
Baby's in the bone bag
Baby's in the bone bag again

I murder all day and I slaughter all year
Keeping up the good stuff and bringing it here
Trying to keep my baby from boiling up the bones
To make hot soup she wont leave the bag alone
Fuck me darling can't you find another game
I aint no cannibal I'm just insane
What can I do to make you understand
That your fucking with the day of a bone collecting man
