Welcome to hell you wont be happy here
It's my greatest pleasure to give you pain and fear
All I ask of you in return
Is make a little noise to help the furnace burn
Eternally now live in my dream
Wont you help me
SCREAM YOU FUCKERS SCREAM

Burn wont you burn let your skin peel away
Your soul is lost for ever and a day
This torment I will give you for free
Please wont you cry for me
Hell bound choir sing songs serene
Come on let me here you
SCREAM YOU FUCKERS SCREAM!

Chorus
I'll boil your eyes I'll tell you lies
Eat your hopes and swallow all your dreams
Bring you your nightmares show you who don't care
All to make you scream
