Well, it's night time in the city,
Let's all go out to play.
Their ain't no-one can catch us,
Couldn't stop us anyway.
We do just what we wanna do,
Get outta the way, we're the Wrecking Crew.

The city as you know it's gone,
We're all that's left alive.
We prowl around the streets in packs,
Do what we can to survive.
We're gonna do just what we wanna do,
Get outta the way, we're the Wrecking Crew.

We're the Wrecking Crew,
We do what we must do.
You've blown away our lives,
Killed our lovers and our wives.

If you don't like our attitude,
Pal, you're out of luck.
We're the Mutant Wrecking Crew,
And we don't give a fuck.
We'll do just what we wanna do,
Get outta the way, we're the Wrecking Crew.

We're the Wrecking Crew,
We do what we must do.
You've blown away our lives,
Killed our lovers and our wives.

Why don't you come and join us,
If you think you've got the guts.
We'll all go out and have a real good time,
When all the shops are shut.
We're gonna do just what we wanna do,
Get outta the way, we're the Wrecking Crew.
