Daylights comin' and i can't wait
I've been pacing around...
and counting down for the sun to bale me out

Someone's knocking at my door
Who could it be?...
I think it is someone for me

Breaklight's flashing and im wondering, where could
we go?...
It's looking like soon im gonna know

Here we go...
and i can't wait till the end of the road

I can feel the light...
Ow i can feel the light...
Ow i can feel the light...
and i know it does does feel bright

Daylight's comin' and i can't wait
I've been pacing around...
and counting down for the sun to bail me out..
counting down for the sun to bail me out
