"Is That The Way"

See the lights a rippin' from a ship across the bay
Old Sebastian, goin' South
And everybody's brother was a million miles away
Is that the way to treat your guy

[CHORUS]

Is that the way to treat your baby
Is that the way to treat your guy
Since you left me, girl
You know I've gone stone crazy
Is that the way to treat your guy

The distance that surrounds us
Is the same that's now behind us
The only difference now
The

You know you love me, girl
You broke my heart, you changed my world
Is that the way the treat your guy

[Repeat CHORUS 2x to FADE]
