"Ghost In The Firewall"

Look for me here
It's blacker than the night
Look for me here
But don't throw me in the light
Keep me on the inside
A part of the team
Keep me on the inside
I don't care what that means

Oh- Like a ghost in the firewall
Oh- Like a virus in the system
Oh- Like a ghost in the firewall
Let me in
Let me fade away

Look for me here
My name is legion
Look for me here
We are many - we are one

Keep me on the inside
Lost in the crowd
Keep me on the inside
Don't try to force me out

Oh- Like a ghost in the firewall
Oh- Like a virus in the system
Oh- Like a ghost in the firewall
Let me in
Let me fade away
Let me in
Let me fade away
Let me fade away
