"Greatest Gift"

I awake to my beating heart, you save my soul from
falling apart
Say goodbye I'm leaving the race, how I long for your
embrace
How long did it take me to find? So close I won't be left
behind
I believe and to you I confess
I gave up on me but you showed me happiness

Your love is the greatest gift I could hope to receive
On my way to being so complete
Make no change to a perfect idea
Greatest gift I have ever seen

I found what was missing inside
No longer does this girl need to hide
Lay me down that I may be strong
'Cause together is surely where we belong

Your love is the greatest gift I could hope to receive
On my way to being so complete
Make no change to a perfect idea
Greatest gift I have ever seen

Nightly I pray no harm befalls you
Needless to say, it's all I can do
Your every desire I promise no less
It's true I can say because of you I've found happiness

Your love is the greatest gift I could hope to receive
On my way to being so complete
Make no change to a perfect idea
Greatest gift I have ever seen

Love is greatest gift
Your love, your love has given me everything
Your love, your love, love is greatest gift
