"It's Tonight"

Visit "[It's Tonight](#)" on MotoLyrics.com

You're like a shooting star
Sparks are flying everywhere
No matter where you are
They're gonna follow you right there (You're gonna find it)

Now come into my ray of light
It's a slice of heaven called sheer delight
You can't escape the light of day
Anything you wanna do to satisfy
It's alright
Yesterday is gone, tomorrow's out of sight
It's tonight

Come on get on your feet
And let the music take you there
Change your reality
And feel the fire if you dare (you're gonna find it)

Come into my ray of light
It's a slice of heaven called sheer delight
And if you can't escape the light of day (baby wait)
Anything you want to do to satisfy
It's alright
Yesterday is gone, tomorrow's out of sight
It's tonight

Leave the entire world in tatters
Here and now is all that matters
Alice and all her mad mad hatters
Had it right (it's tonight)

Go into imagination
Feel the silence and sensation
Your life is your own creation
Make it right

You're like a shooting star ...
No matter where you are ...

Anything you want to do to satisfy

It's alright
Yesterday is gone, tomorrow's out of sight
It's tonight
Anything you want to do to satisfy
It's alright
Yesterday is gone, tomorrow's out of sight
It's tonight

Go into imagination (it's tonight)
Feel the silence and sensation
Your life is your own creation (it's tonight)
Make it right

Leave the entire world in tatters (it's tonight)
Here and now is all that matters
Alice and all her mad mad hatters
Had it right (it's tonight)
