There's no stopping us now  
Now we've found our way  
There's no stopping us now  
Our love I here to stay  
Foolishly we've been apart  
Breaking each other's heart  
Stubbornness and foolish pride  
Caused us to put love aside  
Loneliness we have known  
Open up our eyes  
To the love that was always there deep inside  
Now that we face the unknown  
I can't make it alone  
We must be together more now than ever  
Now that we've found love  
We've got to hold on, love

Repeat

The precious hours we have lost  
We'll never regain  
But together we have known  
We'll push behind  
Together forever we'll make love time  
Now we're in each other's arm  
Nothing can do us harm  
Nothing can shake us  
Nothing can break us  
We'll be together forever and ever  
Together, my darling for ever and ever

Repeat

Never again shall foolish pride
