There's nothing like doubt tearing your mind
To leave you muddled up and blind
There's nothing like fear riding your soul
To leave you stone cold
There's nothing like rain falling in the night
From a vast hidden height
Falling like tears from the dark sky's lonely eye

There's nothing like heat biting your skin
To let you boil from within
There's nothing like sweat dripping down your sides
Gleaming nights
There's nothing like flames licking in the air
Hungry, without a care
Licking like tongues, here and there
And everywhere

Let's get lost
Let these frozen hearts defrost
Whatever the cost, let's get lost
Let's get lost
Roll the dice and play our cards
Whatever the cost
Let's get lost

There's nothing like hopes taken to the test
To the edge of more or less
There's nothing like truth cutting to the bone
To leave you overthrown
There's nothing like hearts breaking in two
As only trusting hearts can do
Breaking like glass, frail and new
What else can we do

Let's get lost
Let these frozen hearts defrost
Whatever the cost, let's get lost
Let's get lost
Roll the dice and play our cards
Whatever the cost
Let's get lost

In too deep
Already we're in too deep
Feels good to be in too deep
