Visit "[Meant To Be](#)" on MotoLyrics.com

All my life, I've long to hold the one that sets me free
I've found you, and in my heart I know you're meant for
me

Oh this feeling must be real

The way you make me smile, the way you make me feel

Chorus:

There you were

The one that I've been waiting for

My answered prayer

Like an angel sent from up above

My shooting star

You are my love, my dream, my meant to be

When we touch

I get this funny feeling in my heart

When we kiss

I never want for us to be apart

Oh whenever you're with me

I get these butterflies, my knees just get so weak

All my life, I've long to hold the one that sets me free

I've found you, and in my heart I know you're meant for
me

Oh, it's hard to find the words

I don't know what to say but my heart will let you know...
