Out here in the street  
Is not where I wanna be  
Under her feet  
Just to be with her  
The sheets are on the line billowing  
We'll sleep with the smell of the breeze  
The places I've been  
Or someone I used to be

Out here in the street  
Nothing grows  
There's nothing that I don't  
Already own  
There's a big big world in there  
And I want it all  
From the tips of her hair  
To the core

I'm just a dog  
Training to be a man  
I'm just a dog  
Learning stuff I don't understand  
But at night I howl  
But at night I howl

And even though I hate it  
I need a good bathing  
A long untangling  
'Cause my heart's aching  
I'm just a dog  
Training to be a man

I'm just a dog  
But at night I howl  
Just a dog  
I'm just a dog
