Hey, yeah, yeah

Yo, I got my bags packed
Crepe's laced up, let the black match
09 was all mine, padlock it, had that
My own mind, front line, war like it's Baghdad
I took aim, target the frame, I let him have that

Few of us are here now, many more to come soon
Let a little rain down, get ready for the monsoon
Ready for the onslaught, all you see is concords
Black clouds will end this, ready for the full moon

I know, I know that I'll be coming back around, yeah
And I'll be coming back around here, yeah
And I'll be coming back around here

Keep on, keep on, keep comin'
'Round and 'round and 'round, yeah
And I'll be coming back around here
I'm on a cloud 9, tell me how it looks here

Oh, maybe we can take the world tonight
There's nothing that I wouldn't sacrifice
Till we made it, till we made it, oh

I know we can make it through the fight
As long as you're riding by my side
Till we made it, till we made it

Yeah, yeah, yeah, yeah
It's drama, yeah, are you ready for the drama?
Ring the alarm, we are blazing the lava
Yeah, yeah, yeah, yeah
I'm drama, yeah, are you ready for the drama?
What goes 'round, comes 'round that's Karma

Yeah, we can make this, sure we can make it
Had enough of asking so now we're gonna take it
Open the doors wide, size 6 for the side
Rearrange the game, lift the cheek bones, face lift

Yeah, now we've mastered the basics
Only difference is you wasn't blessed with the same
gift
Thanks I do give, I count my blessings
Magic with words, full life, no tricks

I know, I know that I'll be coming back around, yeah
And I'll be coming back around here, yeah
And I'll be coming back around here

Keep on, keep on, keep comin'
'Round and 'round and 'round, yeah
And I'll be coming back around here
I'm on a cloud 9, tell me how it looks here

Maybe we can take the world tonight
There's nothing that I wouldn't sacrifice
Till we made it, till we made it, oh

I know we can make it through the fight
As long as you're riding by my side
Till we made it, till we made it

Yeah, just like that, they say learn from your mistakes
But we plan to perfection so we don't plan to misplace
And I do it at my own pace, yeah

Maybe we can take the world tonight
There's nothing that I wouldn't sacrifice, no
Till we made it, till we made it, oh

I know we can make it through the fight
As long as you're riding by my side
Till we made it, till we made it, yeah

Yeah, yeah, yeah, yeah
Black clouds
Ring the alarm, we are blazing the lava
Yeah, yeah, yeah, yeah
And are they ready for the drama?
