The way to go  
It seems long  
Moonlight shines on you  
Its been so dark  
For so long  
And daylight hides from you

I can not be what I told you that I'd be

Yes you should have known when I broke your heart  
That I am full of holes  
life will pour through me

I cannot be what I told you that id be oh  
That id be oh  
That id be oh  
That id be  
I can not be what I told..

I guess my time has come to destroy your life  
I guess what I can give  
you know my race is won

I can not be what I told you that id be oh  
That id be oh  
That id be oh  
That id be oh  
That id be oh  
That id be oh  
That id be oh  
(I can not be what I told you)  
That id be oh  
(I can not be what I told you)
