

## Tip The Van "Autumn Grace"

Visit "[Autumn Grace](#)" on [MotoLyrics.com](https://MotoLyrics.com)

She wakes when the city goes to sleep  
Stalking you on those city streets  
Never turns her back on you  
She watches everything you do  
The company she gives you you can't keep

This is the life it's how she lives it [2x]  
This is her life [3x]

She's looking out her windowsill  
Well she breezes through the room you feel the chill  
The nights get longer as the days grow colder  
And soon she's changing colors against her will

This is the life it's how she lives it [2x]  
This is her life [3x]

Every day might feel like the same thing  
With the monetary loneliness it brings  
And though she's swallowing her pride  
There is still some hope inside  
Because you gotta live through winter to get to spring

This is the life it's how she lives it [2x]  
This is her life [3x]
