Life is full of problems
And here's the remedy
Denial works for me (denial works for me)
There's a freight train coming
Loaded with anxiety
You're tied to the tracks - don't worry (denial works for me)
Flood, famine, pestilence
They're all yucky
You could let Moses out to the Promised Land
(denial works for me)
Why put off 'til tomorrow
Responsibilities
They'll just come back to haunt you (ignore them totally)
No means no
No means yes
And everything in between
And all the rest
Some people work it out
With therapy
But if you ain't got the money (denial works for me)
Some people work for causes
Some work for charity
Some people's work is a labour of love
(denial works for me)
Life is full of problems
And here's the remedy
Denial works for me (denial works for me)
Now it's reputation time
If I'm a lyricist of any note
I've gotta come up with a punchline
Then again - maybe I don't...
