People see ya got a lot of hats
What of that what of that
People see ya got a lot of hats
What of that what of that
The more hats ya got the more they will run,
Now everybody's got a little shade from the sun
People always want what the people see

People see ya got a lot of friends
It's a means to an end when ya only pretend
People see ya got a lot of friends
Means to an end when ya only pretendin'
The more friends ya got more pretendin' ya do
Now everyone wants to be friends with you
People always want what the people see
Don't make no difference to me
All that people want is all people see
Gimme some of this give me some (more) of that
Before it's all said and done ya gonna have to give it all
back
Well

People see ya got a lot of dope (dough)
Where ya gonna grow (just say no)
Where ya gonna go (just say no)
People see ya got a lot of dope
Where ya gonna go
After the show
The more stuff ya got the more stuff ya givin
I swear I've always tried to make an honest livin'
People always want what the people see
