Call my job
And tell the boss I won't be in
I said call my job
And tell the boss I won't be in
You can tell him I'm sick
(tell him anything)
But I had too much drinking

Sad he all caught the horses
And today I got a 1000 bugs
Sad he all caught the horses
And today I got a 1000 bugs

Oh, you look so good
To me this morning
I don't wanna do a thing
But lay around with you

After friday
Saturday and sunday
You know I don't want to go
To work almighty
I said after friday
Saturday and sunday
You know I don't want to go
To work almighty

After longing you darling
I don't wanna do a thing
But lay around with you

Take the phone off the rock
A put a note on the door too
I don't want to do a thing
Spend this time with you

Call my job
And tell the boss I won't
