It's a holiday, and
If you wanna sway me, girl
If you wanna, insist it's me

If you wanna stay
If you gotta say
All the things that you'll do
You know I'd love to stand in line

Don't wanna make sweet dreams
I said, pass me by again
As you're walking on the shore
In the slumbertime
We sleep and dream
Waiting on the girl who loves me
You love me, good night (yeah)
Yes, you wanna doze with me
And drift in and out of mind again
When we, when we want again
Right now

I just wanna build the dream with you
Vision in my mind, you and I
Driftin' in Slumbertime

Gettin' late in the night
And you said it was going to rain
So you're really goin'
To the dreamland now

We'll get some lovin' in the night
When you wake, well
We're gonna play
You're gonna play me, wow (yeah)

'Cause you wanna love me still
And in the slumbertime, yeah, yeah, yeah
And you wanna hold me babe, yeah girl
And nappin' in the slumbertime, wooh-hoo

Yes, you shouldn't have babied me (yeah)

Dreamin' in the Slumbertime
In the summer time

Â'Cause when my heart is here to be with you
And you know I can, you know I am
Drifting here in my mind
In my mind, yes
Drifitin' in Slumbertime
Don't wanna make sweet dreams (yeah)
Pass me by again
As you're walking on the shore
In the slumbertime
We sleep and dream
Waking on the girl who loves me
You love me, good life (yeah)

Yes, you wanna doze with me
And drift in and out of mind again
When we want again
Right now

I just want to build the dream with you
Vision in my mind, you and I
Drifitin' in Slumbertime

It's a holiday
If you wanna sway me, girl
If you wanna, insist it's me

If you wanna stay
If you gotta say
All the things that you'll do
You know I'd love to stand in line

Â'Cause you wanna love me still
And in the slumbertime (yeah...)
And you wanna hold me babe, yeah girl
And nappin' in the Slumbertime, wooh-hoo

Now you shouldn't have babied me (yeah)
In the Slumbertime (yeah...)

Â'Cause when my heart is here to be with you
And you know I can, you know I am
Drifting in and out of mind
Drifting in Slumbertime
