I was on the street corner  
Hangin' with my girlfriends  
we were talkin' bout how we are all alone (talkin' bout  
how we are all alone)  
then he came around the corner and  
stepped into my life, it was so right. I looked at him and  
he looked at meeeee (repeat) and then it all became my  
fantasy. (my fantasy)

chorus

Give a shout out to my baby  
I wanna tell the whole world about him  
cause he's everthing I wanted  
He's out but, he's still in.

10 years from now  
I'm still with my baby  
He's still everything I wanted yeah yeah  
Now every since he walk around that corner and  
when he stepped into my life  
cause now everything that is around me is so good  
cause i'm on the stage, singing, "Give a shout out to my  
baby".

chorus

Give a shout out to my baby  
I wanna tell the whole world about him  
cause he's everthing I wanted  
He's out but, he's still in.
