## "I Need That"

Visit "[I Need That](#)" on MotoLyrics.com

(exclusive mp3.com track)

This is a special song just for  
Our fans on the internet  
Sometimes you need that

Ha, tlc's back boy  
Again and again  
Woo

Ooh, i-i-i-i (i, I)  
Ooh, ooh  
Ooh, i-i-i-i  
I-i-i-i-i

You and me (you and me)  
Trading fantasies (uh huh)  
Lying on the beach (yea)  
Ooh baby (ooh, ooh baby)  
I need you next to me (next to me)  
'cause I'm steadily (uh)  
Craving all the things  
That you gave to me (that you gave to me)  
Ohhhh

Bridge:  
Don't you wanna know the dreams that I go through  
Picturing the things I want to show you  
Tellin' me sweet things I want to hold you close to me  
(close to me)  
I really don't care who knows I wanna break you  
Off give it to you like I'm supposed to  
Baby i, I can't take this no more  
I want you

Chorus:  
Take me  
'cause I want and I need that  
Squeeze me  
Then we'll know I like that  
Tease me  
I got to have you on me

I need that  
Take me  
'cause I want and I need that  
Squeeze me

Then we'll know I like that  
Tease me  
I got to have you on me  
I need that

Constantly (huh)  
I fantasize on how to be (how)  
Your favorite lady (uh huh)  
Ooooh ooh baby (ooh)  
I wanna feel your energy (yea energy)  
Just flowin' through me (flow through me)  
Creatin' memories of how I know it could be (oh)

Bridge

Chorus

Chorus

Yo I keep it blazin' it's so amazin'  
The occasion that I am raisin'  
Mind body invasion  
So who you savin' all that love for  
Open up your mind explore  
We'll make it hard-core  
You can be the candy man  
I'll be your candy store  
Give you just a little more  
Than what you bargained for  
And if you ask me for some guidance  
It's not a minus  
I'll break it down to a science  
Kitchen appliance  
To what extent can you measure the true  
Value of my 100 percent  
When I'm unpassionate to you  
Who thinks dollars and cents  
I must confess I need that  
Don't wake me up if I'm dreamin'  
Because I'll be in that

Chorus

Chorus
