Chorus:

let's take our time baby  
love last forever  
over and over  
we'll love together

come here  
next to me  
and let me make you high  
no mistakes  
we will make  
a long time  
we will love

chorus

kiss me  
hold me tight  
and let's get  
wet tonight  
happiness is pleasing you  
so let me

make you cry

chorus

slowly deep inside me  
hold me kiss my body  
only you can make me  
so easy  
slowly deep inside me  
hold me kiss my body  
only you can make me  
so easy

chorus
