Whoa whoa whoa
Whoa whoa whoa
Whoa whoa whoa
And I believe it don't affect nobody else but me

Ya'll been tellin' me what to do
Since I was old enough to walk, old enough to talk
Never let me speak or move, do my own thang
But now I'm growin' wiser now, brighter now
A little bit tighter now, ya'll can't hold me down
I know you hate to hear but things have changed in

My life
It's kinda wild but, me and my style stuck
Now everybody and their momma try to do it
My life
I done that, been through that
So there ain't nothin' that you can tell me

My life
On a good night if I feel like
Me and the girls hit the club until, it's my life
It's my life
And I believe it don't effect
Nobody else but me, me, me, me

I'm gettin' sick and tired of folks
Who wanna come around, claim they gon' get down
But all they wanna do is see me make a wrong move,
yeah
I don't care what you hear in the news
And see who I choose to do the late night creep with
I'm gonna do just what I wanna do, it's my life

My life
It's kinda wild but, me and my style stuck
Now everybody and their momma try to do it
My life
I done that, been through that
So there ain't nothin' that you can tell me

My life

On a good night if I feel like
Me and the girls hit the club until, it's my life
It's my life
And I believe it don't effect
Nobody else but me, me, me, me

Whoa whoa whoa
Whoa whoa whoa
Whoa whoa whoa
And I believe it don't affect nobody else but me

Sometimes I might get a little crazy
And sometimes I might seem out of hand but I'm sayin'
Life's too short for me to let you dictate
What I say and the moves I make
I'm sick of people tryinna tell me what to do
It's my life and I'ma live it like I want to

Check it, another day another dollar
Is the reality of my mentality
Otherwise don't even botha
You see my father was a wise old man
Always creatin' a plan
For me to conquer this land

He said I am what I am
So be the best that I can
And if them others don't like it then why should I give a
damn, ha
Maybe so 'cause when his life wasn't right
My mother picked up them pieces
Continued on with the fight

So now it's plain to me
It ain't no game to me
See mom and dad corrected math
1 and 1 equal 3
4 and 5 I count my sister and brother
Stayin' live till we die

And don't you ever be worried
'Cuz I'm down for the ride
Through cliffs and valleys then crescent hills
Tumble down i'll set a new ground for jack and jills
Ever wonder what put the thunder deeply in my eyes
Take a look and you'll find the sunshine

My life, my life, my life

My life
It's kinda wild but, me and my style stuck

Now everybody and their momma try to do it
My life
I done that, been through that
So there ain't nothin' that you can tell me

My life
On a good night if I feel like
Me and the girls hit the club until, it's my life
It's my life
And I believe it don't effect
Nobody else but me, me, me, me

My life
It's kinda wild but, me and my style stuck
Now everybody and their momma try to do it
My life
I done that, been through that
So there ain't nothin' that you can tell me

My life
On a good night if I feel like
Me and the girls hit the club until, it's my life
It's my life
And I believe it don't effect
Nobody else but me, me, me, me
