[T-Boz] (Chilli)

Hmm, yeah (yeah)

You know who it is (that's right, it's us)

And right about now

Ha, you know what time it is

(Wha'chu gon' do? Wha'chu gon' do?)

Let me break it down for ya (uh)

Check it

Hey, what's up, baby boo?

I've got a question for you

What is your name, your sign, your number

Can I up with you?

I got my eye out on you

Well, are you feeling me, too?

We can hang out, chit-chat, whatever you know

Whoop-de-woo, alright

B-Section: [Chilli]

Wouldn't that be nice?

If I had the chance to blow your mind

On just one lonely night

I'm sure you'll have a good time

Because my love's so good

So gentle and so smooth

So whenever we whoop-de-woo

I'mma put it down on you (you, you)

Chorus:

Come on let's

Whoop-de-woo-de-woo (woo!)

Come on let's have fun 'cause

I want you, you want me, and we want we

Come on let's

Whoop-de-woo-de-woo (woo!)

Come on let's get together

I wanna know you on a deeper level

[T-Boz]

So you tell me what you gonna do

Do you think you gon' come threw?

'Cause I wanna find out if those kinky rumors 'bout you

are true
See I heard that from my crew
Said you'll have me feeling brand new
Oh yeah they say you are an expert in
Whoop-de-whoop, alright

B-Section

Chorus

[Left Eye]

Yo, I keep it blazin' it's so amazin'
The occasion that I am raisin'
Mind-body invasion
So who you savin' all that love for?
Open up your mind explore
And make it hardcore
You can be the candy man
I'll be your candy store
Give you just a little more
Than what you bargained for (huh)
And if you ask me for some guidance
It's not a minus
I'll break it down to a science
Kitchen appliance

Chorus

[Outro]
