Someone says to me
Skateboard is not cool and shit
But I know how to give up skating
Today I go to favorite spot
It's not so far from my town
Just do push, I feel free on my board in first ground
And let it go

Do you know reason why I skate
Cause I just ride, ride, ride, la, la, la, la, la
Don't you think this play is fucking great
So I just ride, ride, ride, la, la, la, la, la

By the way, I want to tell you my favorite tricks name
Let me see, ollie, kickflip and 360 flip
And we grind on ledge in stairs, sometimes sliding on
handrail
But this is so hard to make it cool
I need to practice more in many place and many trick

Do you know reason why I skate
Cause I just ride, ride, ride, la, la, la, la, la
Don't you think this play is fucking great
So I just ride, ride, ride, la, la, la, la, la

Let it go, let it go!

Do you know reason why I skate
Cause I just ride, ride, ride, la, la, la, la, la
Don't you think this play is fucking great
So I just ride, ride, ride, la, la, la, la, la

So I never quit skating forever
Today I go skating with you together
