

Tnx **"The Fellowship"**

Visit "[The Fellowship](#)" on MotoLyrics.com

Dear my friends stay on my side
Whenever I feel so sad
It is you that make me feel ok
When my life is going wrong

I still remember that day
When I meet you for the first time
Ten years have passed since then
But we never grow up since that day

I still believe that you're my life-long friend
I feel no regret for my life with you

Dear my friends stay on my side
Whenever I feel so sad
It is you that make me feel ok
When my life is going wrong

I still remember that day
When I meet you for the first time
Ten years have passed since then
But we never grow up since that day

I still believe that you're my life-long friend
I feel no regret for my life with you

I never forget all this time
And never forget to smile with
I never forget all this time
And never forget to smile with my friends
