I stole the stars and sky for you
I lost them in the oceans blue
Eyes of yours I swear
That's why my heart's still dreaming
The waves are calm but take me out
To watch the city lights burn out of time
The nights are mine
I'm waiting for the storm

Take me far so I can't look
Take me far so I can't look back
Take me far so I can't look back

Cause your name covered my heart from front to back
And now I lack the strength to leave it all behind
Now I'm dying on the inside
Cause your name covered my heart from front to back
And it was all an act
And now I see that I will be
Just a faded memory

But now you're gone
And I can still hear our song
To the sound of a heartbreak
And for my sake you shoulda let me walk back to take
All the sparks that our lips make
And now I'm here
With nothing to fear
But the fact I have nothing to fear
And I couldn't be scared if I wanted to
Cause you took everything I was scared to lose.

Take me far so I can't look
Take me far so I can't look
Take me far so I can't look back

Cause your name covered my heart from front to back
And now I lack the strength to leave it all behind
Now I'm dying on the inside
Cause your name covered my heart from front to back
And it was all an act
And now I see that I will be

Just a faded memory

So keep my heart
It's more at home in your hand
Then my chest
While I've learned how to breathe all over again without
you
And if I fall apart
Please remember me at my best
Cause the best part of me was always you

So keep my heart
It's more at home in your hand
While I've learned how to breathe all over again without
you
And if I fall apart
Please remember me at my best
Cause the best part of me was always you
It was you.
