To Be Juliets Secret
"Wrong From The Start"

If you could see me one more time
What would you say?
Would you feel sorry?
If you could see me one last time
How would you feel would you cry
For the first time?

I would scream at the top of my lungs
Cause you know we were wrong from the start
I'd say take back everything you said that you didn't
mean
Which was everything

If I had the words
Oh I'd steal
I'd steal your breath away

And if I had the touch
The touch
I'd set your heart on fire

If I had the words
The words
I'd steal your breath away

And if I had the touch
The touch
I'd set your heart on fire

Everything that I can't say
Will fade away
And no one knows what we were
Or what we could've been

And everything that I can't say
Will fade away
And no one knows what we were

If you'd let me take you back
You know I should and I would go
To the ends of the earth

Just so you'd know
That every heart falls apart

If you'd let me take you back
You know I should and I would go
To the ends of the earth
Just so you'd know
That every heart falls apart

What if we could go back to the beginning
Exactly Where we went wrong
We went wrong and I
I've never been so cold
I've never been so alone
It's getting colder and colder tonight

What if we could go back to the beginning
Where we went wrong
We went wrong and I
I've never been so cold
I've never been so alone
It's getting colder and colder

Scream at the top of my lungs
Tell you that we were wrong from the start
I'd say take back everything you said
That you didn't mean
Which was everything

Scream at the top of my lungs
Tell you that we were wrong from the start
I'd say take back everything you said
That you didn't mean
Which was everything

Scream at the top of my lungs
Tell you that we were wrong from the start
I'd say take back everything you said
That you didn't mean
Which was everything
